### About:

As a student at Code Platoon, I'm learning to be a full-stack developer and plan to bring my acquired skills to my new career in tech: my military experience emphasized teamwork, communication and perseverance; and working fulltime as a 911 EMT increased my problem solving, emotional intelligence and resilience. I'm new to the tech industry and ready to go all-in.

### Experience:

**Code Platoon**  
*Full-Stack Web Developer Bootcamp*

Jan 2020 – Apr. 2020  
Chicago, IL (Remote)

### Education:

**University of New Hampshire**  
*Bachelor of Science: Biomedical Science*

Fall 2016  
Durham, NH

### Interests:

- ❖ Jamming with Friends (guitar or drums)
- ❖ Finding a New Brewery (can't give Treehouse all my money)
- ❖ Trying New Hot Sauces (Pepper Palace is my church)
- ❖ Reading Books (especially self-development, philosophy and ideologies)
- ❖ Attempting the Art of Baking (starting with bread)

### Employment:

**Charter Communication**  
*Field Technician*

Feb. 2019 – Jan. 2020  
Worcester, MA

- Excelled in customer service and maintains a 5/5 customer satisfaction rating for several months
- Repaired and troubleshooted telecommunication systems and company equipment, obtaining rank two for least repeats calls for two months straight
- Consistently rated within the top 40% of employees on all metrics
- Performed residential installations of telecommunication networks

**American Ambulance Services**  
*Emergency Medical Technician*

Oct. 2014 – Nov. 2018  
Somersworth, NH

- Obtained primary 911 EMT after eight months of employment
- Assessed nature and extent of illness or injury to establish and prioritize medical procedures
- Observed, recorded, and reported patient condition or injury, treatment provided, and reactions to drugs and treatment to hospital staff and documented in post-run patient care report
- Administered first-aid treatment and life-support care to sick or injured persons in prehospital setting

**United States Army and NH National Guard**  
*Officer Candidate & Signal Support Systems Specialist*

Nov. 2011 – Present  
Concord, NH

- Responsible for all encryption and communication security.
- Training manager for communication and IT systems
- Supervisor for junior enlisted teams from 5 to 20
- Responsible for equipment in excess of \$400,000
